

### Section-III: Student's observations about JN College

1. The toilet should be cleaned regularly, Wi-fi facilities should be available for all the students, Teacher should focused on practical knowledge, the college infrastructure should be based on modern facilities.
2. My observation is mostly positive, however from academic point my strict personal view is that concepts based education must be encouraged along with getting more marks. Technology in education is being adopted in my college which is appreciable and needs to be developed more. Also, adding to the point IT facilities like WiFi needs to be provided to whole campus. Overall I believe in due course of time my college will become prominent college in Assam.
3. Relationship between our college teacher staff very good.that is outstanding.

15. The facilities that they are providing is V good, the library, the canteen, the classrooms are all ok for us, but the faculties many a time go off their duty, do not do the regular classes. I think it would be better if they do our class in a regular sense. Thank you that's all -

23. The college campus is neat and clean! Once you enter the campus via the main gate, you'll be greeted by the shade of all the tall and greenish on both the sides of the road and the entrance! The canteen provides edible items at an affordable range. The in-built bookstore within the campus provides books and study materials for different courses, thereby saving us the trouble to look for those books in other bookstores, the college library is my favourite spot so far in the campus, it's calm and silent thereby giving me the space and peace to continue any of my readings or writings there within the college premises.
