SOUL 2.0	Partially automated	2.0	2014

The College Central Library using SOUL 2.0 (Software for University Libraries) since 2014. SOUL is a state-of-the-art Integrated Library Management Software designed and developed by the INFLIBNET (Information and Library Network) Centre. The SOUL 2.0 consists of five modules like acquisition, Catalogue, Circulation, OPAC (Online Public Access Catalogue, Serial Control and Administration modules.

In SOUL 2.0 Catalogue module is used in our library for retrospective conversion of library resources. At present in our library entered 15487 numbers of bibliographical records of library resources in SOUL 2.0 database and generate barcode for all the textbooks.

Library followed the Circulation module for creating membership management, issue-return, overdue charge, reminder, stock verification etc. Barcode technology is used in the library for issue and return of books.

One of the major attractions of SOUL2.0 is its robust Online Public Access Catalogue (OPAC). The college Central Library provide this OPAC facility to all the user of the library. The OPAC has simple and advanced search facility with the minimum information for each item including author, title, subject heading, keywords, class number, series name, accession number or combination of any of two or more information regarding the items.

Apart from this SOUL 2.0 library is using DSpace Content Management Digital Library software for digitization of documents. Using this software library has created an Institutional Repositories (IR) and access is made available online to the entire scholarly community in open access (<http://jnc.digitallibrary.co.in/>). In this IR faculty publications, college magazines, question papers, syllabus, free e-books and many more information is made available. Reprography service is also available in the library.
