From The Desk of Principal

With pride, I present the 2nd edition of Jawaharlal Nehru College's Newsletter (2024–25)-a reflection of our milestones, innovations, and collective spirit. Guided by our vision of excellence in education through teaching, learning, and innovation, this edition showcases progress in academics, technology, and community development.

The college introduced the Integrated Teacher Education Programme (ITEP), approved by NCTE. We also successfully completed 13th DGCA-approved Drone Pilot Training batch in collaboration with NECTAR for advancing multidisciplinary education and skill empowerment.

To foster collaboration, MoUs were signed with leading institutions including NIELIT, Gauhati University, USTM, Royal Global University, Down Town University, Regional Sericulture Research Station, KRD College of Education, and PHE-Amjonga. A NIELIT Study Centre now offers IT training, including free courses for underprivileged groups. Entrepreneurship remains a priority with the launch of an Entrepreneurship Development Centre (EDC) and one of only four Incubation Centres (ICs) in the North East. The Banana Fibre Processing Unit and upcoming Bakery Unit under the PM-DeviNE project further promote self-reliance and local employment. Our sustainability initiatives include the Amrit Sarovar, developed for aquaculture and food security, and a Rubber Garden under agroforestry, strengthening long-term resource sustainability.

As we celebrate 62 years of Jawaharlal Nehru College, this Newsletter stands as both a tribute to our journey and a pledge to continue striving for excellence. I extend my gratitude to our students, faculty, alumni, and stakeholders for their enduring support.

With Warm Regards
Dr. Tapan Dutta

COLLEGE AT A GLANCE

To set a hallmark in the field of education and preserve, create and disseminate knowledge through teaching, learning, innovation and experimentation to mould responsible individuals for leading a society with desire for progress and prosperity of human race.
