The institution has effective welfare measures for teaching and non-teaching staffs:

As an educational Institution the college is always giving thrust in creating a proper work environment both for faculties and non-teaching staffs so that each and every individual can give his/her best contribution to the institution and to society. For creating healthy environment, the institution taken has necessary steps to provide safe drinking water facility, toilet facility and all other facilities. The employees can avail leaves and the authority sanctions the same as per leave rule for government service holders. The authority also inspires the members of the teaching staff to take part in various career upliftment programs. Following the UGC guidelines the college has developed a day care centre. The participants members of the co-operative society that run the organic farm of the college are the direct beneficiaries from income generated from the farm. Moreover, "J. N. College Employees' Mutual Aid Fund" a contributory fund extend financial assistance to the members of teaching and non-teaching staffs whenever in need. The college is going to enrich the environment further in the coming days.
